NORVIC
— INTERNATIONAL —

BUILT ON VISION. DRIVEN BY VALUES.
COMMITTED TO EXCELLENCE.

TRUSTED ACROSS INDUSTRIES

High-performance rubber solutions engineered
for every industry, everywhere.

CHEMICAL

Resistant to aggressive
chemicals, acids,
alkalis and solvents.

MARINE

Reliable solutions for
marine protection and
offshore applications.

OIL & GAS

Engineered for extreme
conditions in upstream,
midstream and downstream.

MINING

High wear and abrasion
resistance for heavy-duty
mining operations.

POWER

Durable materials for
power generation and
plant equipment.

WATER

Corrosion protection and
sealing solutions for water
treatment systems.

FOOD

Food grade rubber solutions
ensuring hygiene, safety
and compliance.

PHARMA

Pharma grade materials for
critical, high-purity and
controlled environments.

AUTOMOTIVE

Precision rubber components
for sealing, damping and
vibration control.

AGRICULTURE

Durable and weather
resistant solutions for
agricultural applications.

EXPORT MARKETS

EUROPE

Delivering quality
rubber solutions
across Europe.

USA

Trusted by industries
across the United
States.

MIDDLE EAST

Serving industrial
sectors across the
Middle East.

UAE

Proudly supplying
high-performance
solutions in UAE.

SAUDI ARABIA

Supporting growth
and industries across
Saudi Arabia.

MARINE & SPECIALTY — PRODUCTS —

Engineered Solutions for
Protection, Performance & Reliability

OIL CONTAINMENT BOOM

CONTAINS OIL SPILLS

Prevents the spread of oil on water surfaces.

DURABLE & UV RESISTANT

Built with premium materials for harsh marine conditions.

HIGH BUOYANCY

Designed for stability and maximum floatation.

QUICK DEPLOYMENT

Easy to install and efficient in emergency response.

BEACH SEALING BOOM

SHORELINE PROTECTION

Prevents oil from reaching beaches and sensitive areas.

TIDAL ADAPTABILITY

Maintains an effective seal even with changing tides.

HEAVY DUTY CONSTRUCTION

Abrasion, puncture and weather resistant.

EASY & FAST INSTALLATION

Simple anchoring system for rapid deployment.

RICE POLISHING RUBBER

- High wear & abrasion resistance
- Consistent hardness for smooth polishing
- Long service life & low maintenance
- Suitable for all leading rice mills

SILICONE RUBBER

- Pharma & Food Grade Quality
- Excellent temperature resistance (-60°C to +200°C)
- Non-toxic, odorless & biocompatible
- Ideal for critical & hygienic applications

AUTOMOTIVE RUBBER GASKETS

- Precision engineered for perfect sealing
- Oil, heat & chemical resistant
- Long lasting performance & durability
- Custom solutions as per drawings

INDUSTRIAL PROTECTION

ENGINEERED TO PROTECT.
BUILT TO PERFORM.

TANK RUBBER LINING

Superior chemical resistance
and corrosion protection for
tanks and vessels.

PIPE RUBBER LINING

Protects pipelines from
corrosion, abrasion and
aggressive media.

WEAR LINING

High wear resistance lining
for chutes, hoppers and
material handling systems.

ABRASION PROTECTION

Engineered rubber solutions
for extreme abrasion and
impact environments.

APPLICATIONS

CHEMICAL PLANTS

Resistant to acids, alkalis
and corrosive chemicals.

MINING

Protection against abrasion
and bulk material impact.

POWER PLANTS

Durable lining for flue gas
desulfurization and handling
systems.

WATER TREATMENT

Corrosion protection for tanks,
pipes and process equipment.

STORAGE TANKS

Enhanced lifespan and safety
for stored liquids and slurries.

PROCESS EQUIPMENT

Reliable protection for reactors,
mixers, scrubbers and more.

ABOUT NORVIC

Norvic International is a manufacturer and global supplier of high-performance industrial rubber products engineered for demanding industrial applications. Our solutions are designed for industries requiring exceptional resistance to abrasion, chemicals, heat, weather, and extreme operating conditions.

With advanced compounding technology, stringent quality control, and a customer-first approach, we deliver reliable, durable, and innovative rubber solutions that create long-term value for our global partners.

WHY CHOOSE NORVIC

DIRECT MANUFACTURER

In-house manufacturing for consistent quality and reliability.

CUSTOM RUBBER COMPOUNDS

Tailor-made formulations to meet your exact performance needs.

EXPORT QUALITY

Products manufactured to meet international standards.

TECHNICAL SUPPORT

Expert technical assistance at every stage.

QUALITY TESTED

Rigorous testing for performance, safety, and durability.

FAST LEAD TIME

Efficient production and on-time delivery you can count on.
